

BEN NWACHUKWU

STFC 1st TEAM MANAGER

Currently completed my MSc. in Sport Coaching at Loughborough University. I have full intentions and desire to extend my coaching career by getting a full-time coaching job. I have gained 8 years of experience working as a football coach and football event organiser; educating and improving players not only on the pitch but also off of it. I began my career at a grassroot community soccer school when I was 14 years old in Secondary School and progressed since then!

More recently, I have been coaching for QPR's foundation development team, Crystal Palace's educational academy, as well as the head coach of the 1st and 2nd team of Queen Mary University football club. I have a comprehensive history of holistically developing players with a vast amount of my players getting scouted from professional clubs such as Millwall, Norwich, Fulham etc.

I am aware of my philosophical and pedagogical stances in coaching and I'm keen learner who seeks to know about other coaches' philosophies.

Although I still consider myself a student of the game, I have extensive knowledge of the technical and tactical sides of football such as spatial arrangements of players and the principles of defending and attacking. I am an advocate of safeguarding and promoting the welfare of children and young people. As mentioned earlier, I still consider myself a student of the game therefore I am always looking forward to learning new philosophies and techniques from other coaches.

I believe that I have the ability to review videos of their performances hence examine ways for them to improve their game and help players to be as effective as they can. I possess excellent communication skills with the ability to convey information to the players effectively and I have very strong public speaking skills. I can help guide players and encourage them to pursue a career as a professional player and also maintain high academic/ professional standards for the players at all times..
